SUN SHING OPTICAL (XIAMEN) CO., LTD.

SS218

CLASSIC SHAPE, REFINED DETAILS

Design Concept

SS218 for sports sunglasses adopts multi-transparent deep blue T200 integrated wrap-around frame, with wide rectangular lenses to expand peripheral vision and effectively block stray light. The temples use striking navy and bright yellow color blocking, with geometric cutouts to enhance flexibility and lightweight structure. The lenses feature blue mirrored polarized coating, which filters strong glare and UV rays perfectly. Ergonomic curved temple tails fit the head tightly, not easy to slip during cycling, hiking and outdoor activities, perfectly combining outdoor practicality and trendy sporty aesthetics.

Design Concept:
SPORTS SUNGLASSES WITH WRAPAROUND DESIGN AND RUBBER-FRAME COMFORT. THE DESIGN IS FOCUSED ON FUNCTIONALITY AND COMFORT. THE DESIGN IS FOCUSED ON FUNCTIONALITY AND COMFORT. THE DESIGN IS FOCUSED ON FUNCTIONALITY AND COMFORT.

FRAME **LENS** **ELEMENTS**

☐ FRAME: CLASSIC SPORT
☐ LENS: POLARIZED
☐ ELEMENTS: RUBBER-FRAME COMFORT

Why this collection works

The range combines wraparound coverage, rubber-frame comfort, sport color accents and polarized-ready lens stories for buyers building outdoor and active eyewear programs.

Product direction

Each model is presented with its complete original spec sheet so buyers can review frame shape, color options, material notes and sizing clearly.

Customization options

- Polarized, mirrored or smoke lens direction
- Frame color, logo and temple grip detail
- Case, pouch, cloth, label and retail packaging

Buyer advantages

- Outdoor assortment for fast buyer review
- OEM/ODM support from sample to shipment
- Suitable for fishing, running, driving and travel

SS086E

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS086E Crafted from lightweight high-toughness sport plastic material, this half-rim wraparound sports sunglasses adopts a frameless lower-edge cutout design to reduce overall weight and expand peripheral field of vision. The curved integrated frame fits the facial contour tightly to block side stray light effectively. The nose bridge is embedded with textured anti-slip soft pads to avoid shifting during strenuous movement. Polarized gray lenses eliminate scattered glare and provide comprehensive UV protection. Streamlined hollowed temples optimize air permeability and wearing stability, with foldable hinge structure for easy carrying. It is perfectly suited for cycling, running, driving, fishing and all kinds of outdoor sports scenarios.

SS171A

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS171A This pair of sports polarized sunglasses adopts a half-rim frameless cut-off structure on the lower part of the lens to greatly reduce overall weight and broaden the peripheral field of vision. The frame features a two-tone collocation of glossy bright red and matte black, with a streamlined wraparound silhouette that fits facial curves and blocks side stray light effectively. Equipped with anti-slip soft silicone nose pads to prevent sliding during intense exercise. Polarized dark gray lenses filter scattered glare from roads and water surfaces while fully blocking ultraviolet rays. Segmented ergonomic temples with foldable hinges enhance wearing stability and portability. It is ideal for driving, cycling, fishing, running and various outdoor sports scenarios.

SS201

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS201 Made of matte black rubber material, this wraparound sports sunglass adopts an integrated wrap-around frame structure to fully cover the eye area and block wind and strong sunlight. Light smoke lenses filter UV radiation and reflected glare, bringing clear visual experience for driving, cycling and other outdoor scenarios. The slender temples are designed with hollow cutouts to cut down weight and improve air permeability. The tapered curved ends provide tight anti-slip fit, keeping the eyewear stable even during intense outdoor movements.

SS202

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS202 This pair of sport sunglasses is integrally molded from matte black rubber material, adopting a streamlined wraparound frame that closely wraps around the eye sockets to effectively block sunlight, wind and dust. Silver mirrored lenses possess strong anti-glare and UV-blocking performance, optimizing visual clarity for driving, fishing and outdoor sports scenarios. Segmented linear decorative grooves are arranged on the temples to enrich the mechanical sport texture; the slender extended temple structure fits the head stably, delivering non-slip and pressure-free wearing experience during long-duration outdoor activities.

SS203

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS203 Crafted from matte black rubber material, this oval sport frame features sharp beveled edge detailing on the rim to create a sleek futuristic silhouette. Smoke tint lenses effectively block ultraviolet light and scattered glare, delivering soft and clear vision for outdoor driving and daily outings. The temples adopt a split splicing structure with angular streamlined shaping, which reduces overall weight while enhancing structural toughness; the tapered tail fits the temporal area tightly to prevent slipping during movement.

SS204

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS204 This sporty rectangular sunglasses is entirely made of matte black rubber material, adopting a wide wrapped frame design to provide comprehensive eye protection against strong sunlight and wind. Neutral smoke grey lenses effectively isolate ultraviolet rays and reflective glare on roads and water surfaces, optimizing visual clarity during driving, cycling and fishing activities. Segmented anti-slip texture is added on the temples to boost friction; the ergonomic curved temple ends fit the auricle closely, maintaining stable wearing even during strenuous exercise without slipping or shifting.

SS205

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS205 Crafted from matte black rubber material, this rugged angular sport frame adopts an exaggerated polygonal outline with raised layered rims to deliver a tough outdoor tactical aesthetic. Smoke tint lenses effectively filter ultraviolet rays and intense reflective glare, stabilizing visual perception during driving, cycling and field activities. The temples are designed with hollow cut-out structure to cut down weight and improve ventilation; the split splicing design strengthens structural durability, while the tapered curved ends lock snugly against the temples to prevent slipping during strenuous movement.

SS206

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS206 Constructed from matte black rubber material, this geometric square sports sunglasses features sharp faceted frame edges and tiny spike-shaped embellishments on the outer corners, highlighting a bold mechanical and futuristic design language. Low-saturation grey lenses effectively block UV radiation and strong ambient glare, delivering steady, comfortable vision for driving, cycling and outdoor expeditions. The temples are integrated with hollow cut-out detailing to reduce the overall load of the frame while boosting breathability; the segmented spliced structure reinforces impact resistance, and ergonomically curved tips lock firmly around the ears to avoid shifting during high-intensity sports.

CLASSIC SHAPE. REFINED DETAILS.

Design Concept

SS207 Crafted from matte black rubber material, this wraparound sports sunglass adopts a streamlined curved frame with layered raised rims to achieve a snug fit against the face and block wind and strong sunlight from side angles. Cool smoke gray lenses filter ultraviolet rays and scattered reflected light, delivering soft visual effect and eye protection during driving, running and outdoor trips. Hollow cutouts are set on both front and rear sections of the temples to cut weight and enhance air circulation; the slender tapered temple ends conform naturally to the ear contour, ensuring anti-slip stability even during continuous movement.

Design Concept

SS208 This rectangular sunglasses is integrally formed with matte black rubber material, featuring a neat and sturdy wide-square silhouette that balances casual daily style and outdoor practicality. Classic dark green lenses can effectively block ultraviolet radiation and surface glare, delivering natural color restoration and comfortable visual experience for driving and daily commuting. The inner section of temples is equipped with anti-slip textured strips to enhance friction; the segmented spliced structure improves frame toughness, and the ergonomically curved tips fit the auricle tightly to avoid slipping during walking and mild sports.
